DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on August 12, 2005 has been entered.

EXAMINER'S AMENDMENT

1. The Applicant's representative was contacted for permission to cancel the withdrawn claims present in the preliminary amendment filed October 20, 2004.
2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jeffrey E. Costellia on August 30, 2005.

The application has been amended as follows:

Claims 6 and 24 – 29 have been cancelled.

Allowable Subject Matter

3. Claims 1 – 5, 8, 9, 13 – 20, 30, 31, 33 and 36 – 71 are now allowed.

Art Unit: 2891

4. The following is an examiner's statement of reasons for allowance:

Claims 1, 8, 9, 30, 31 and 42 recite, inter alia, a method of forming an electrical device comprising the steps of forming a second insulating film over a first insulating film between the thin film transistor and the pixel electrode wherein the second insulating film comprises silicon nitride. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Claims 2, 13, 14, 33, 43 and 44 recite, inter alia, a method of forming an electrical device comprising the steps of forming a second insulating film over a first insulating film between the thin film transistor and the pixel electrode wherein the second insulating film comprises aluminum oxide. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Claims 3, 15, 16, 36, 45 and 46 recite, inter alia, a method of forming an electrical device comprising the steps of forming a second insulating film over a first insulating film between the thin film transistor and the pixel electrode wherein the second insulating film comprises diamond like carbon. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Claims 4, 17, 18, 37, 38 and 47 – 49 recite, inter alia, a method of forming an

electrical device comprising the steps of forming a third insulating film over a first and a second insulating films between the thin film transistor and the pixel electrode wherein the first and third insulating films comprise silicon nitride. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Claims 5, 19, 20, 39, 40, 50 and 51 recite, inter alia, a method of forming an electrical device comprising the steps of forming a third insulating film over a first and a second insulating films between the thin film transistor and the pixel electrode wherein the first and the third insulating films comprise aluminum oxide. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Claims 52 – 57 recite, inter alia, a method of forming an electrical device comprising the steps of forming a third insulating film over a first and a second insulating films between the thin film transistor and the pixel electrode wherein the first and the third insulating films comprise diamond like carbon. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Claims 58 – 71 recite, inter alia, a method of forming an electrical device in which

the thin film transistor is covered with up to five insulating films with the third insulating film being an organic material. The art of record does not disclose or anticipate the above limitation in combination with other claim elements nor would it be obvious to modify the art of record so as to form a device including the above limitation.

Conclusion

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Asok K. Sarkar whose telephone number is 571 272 1970. The examiner can normally be reached on Monday - Friday (8 AM- 5 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, William B. Baumeister can be reached on 571.272.1722. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
